

Leica Builder Series

Multiple Tasks – One Product

Profile Boards 

- Precise transfer – directly from plans to the jobsite
- No tapes, strings, or plumbing-up required
- Re-setting damaged/missing boards take minutes

Line Layout 

- Simple alignment of structures along the lines
- Easy transfer of line and offset values from the plan
- Straightforward layout in inclined terrain

Volume 

- No more rough-guessing of truck-loads
- Fast and accurate volume determination
- Digital protocol

Checks 

- Checks in situ, precise and immediate
- Measure to non-accessible points
- Hardly possible with plumb bob and tape

As-Built 

- Stores “as built” data for client records, e.g. for future reconstruction
- Data storage in the Builder or externally via interface
- Easy integration in the CAD planning process

Area 

- Ideal for tender preparation for surfaces of all kind
- Facts immediately on the spot
- 1-person mode via reflectorless measuring saves cost and time
- Simple capturing of inclined surfaces

Height Transfer 

- Height transfer in one work step
- Height differences are no problem
- Only 1 person required
